Practices: Agile/Scrum, Code Review, Cross-Browser Compatibility, Web Performance Optimization, Web Accessibility (WCAG), SEO, Responsive/Mobile-First Design, Component-Driven Development, Object-Oriented Programming (OOP)

PROFESSIONAL EXPERIENCE

SMAL GmbH | München, Germany

Frontend Engineer | Aug. 2023 – Feb. 2026

Working student | Apr. 2022 – Jul. 2023

Internship | Oct. 2021 – Mar. 2022

- Engineered a Next.js e-commerce platform achieving a 90+ Lighthouse score using server-side rendering (SSR) and static site generation (SSG), improving SEO and accessibility.
- Integrated RESTful and GraphQL APIs, improving data-fetching efficiency and enabling real-time updates.
- Built a Next.js and TypeScript website with Contentful CMS, Tailwind CSS, and SCSS, optimizing scalability and performance.
- Collaborated closely with designers to deliver responsive, pixel-perfect UIs.

Key client projects:

- **Elgato**
 - Implemented Cloudinary for digital media storage, reducing media bandwidth by 70%.
 - Led accessibility audits achieving 90+ Lighthouse/WCAG compliance.
 - Set up GTM dataLayer tracking for analytics.
 - Integrated Lottie/GSAP scroll animations; built responsive hero sliders and interactive product comparison tools that drove conversion.Stack: Next.js, TypeScript, Contentful, SCSS, Cloudinary, Jasper.
- **Corsair**
 - Built and optimized 10+ high-converting landing pages using Twig, Alpine.js, and SCSS.
- **Vodafone**
 - Identified and resolved WCAG accessibility issues in the router dashboard UI, improving usability for screen-reader and keyboard navigation.Stack: Vue.js, SimpleLocalize.
- **Enphase**
 - Administered content management workflows in Drupal CMS, handling page creation, updates, and scheduled releases; coordinated and executed deployments to production with minimal downtime; authored technical documentation to support maintainability and cross-team onboarding.Stack: Drupal, Twig, MySQL.

Dynamaze UG | Köln, Germany – Frontend Developer Internship

May 2021 – July 2021

- Supported frontend development using Nuxt.js and Vue.js, contributing to the creation of dynamic components, high-performance web applications.

Wo-be Systems GmbH | Kiel, Germany – Master's Project Internship

Nov. 2020 – Apr. 2021

- Conducted in-depth research on monitoring and visualization techniques within Titan, an open-source Industrial DevOps platform.

EDUCATION

Fachhochschule Kiel | Kiel, Germany

M.Sc. Information Engineering

April 2023

National College of Computer Studies | Kathmandu, Nepal

Bachelor's in Information Management

July 2014
